Dear Resident/ Business Owner,

**Commencement of Remediation Works - Goulburn Former Gasworks  
1 Blackshaw Road, Goulburn**

Jemena will soon begin undertaking remediation works at the former Goulburn Gasworks site located at 1 Blackshaw Road, Goulburn and the Council-owned adjacent foreshore area.

The historical gasworks-related operations and waste disposal activities undertaken through the late 1870s until 1970s have contaminated soil and groundwater at the site. Environmental investigations over the past 15 years have been completed to understand the nature and extent of contamination at the site with a Remediation Action Plan (RAP) completed and approved by the EPA. The RAP provides the framework for completing the remediation works.

Over the past few years, we have had extensive consultation with government agencies, regulators (including the EPA), local community members, various community groups and the local Goulburn Mulwaree Council in the planning of these works. The works will be managed by Jemena's principal contractor Enviropacific Services, a well renowned and experienced remediation contractor, who will be supported by many local suppliers and contractors.

The remediation works have been detailed in the included fact sheet but will briefly involve:

- Site mobilisation including environmental controls, and construction of concrete hardstand for the odour control enclosure and water treatment plant;
- Piling works and construction of the odour control enclosure and water treatment plant;
- Excavation and treatment of contaminated soils within the fully enclosed odour control enclosure as well as reinstatement and placement of treated material.
- Placement of asphalt capping layer over remediated areas of the site as well as rejuvenation and revegetation of the Council-owned foreshore area along the Mulwaree River.

You may notice an increase in noise and vehicle movements during the work, however, every effort will be made to minimise the impact of the work on the community.

If you have any questions or want to know more, please contact us on 1800 571 972 during business hours or email [goulburn@jemena.com.au](mailto:goulburn@jemena.com.au).

Thank you for your patience and cooperation during this important remediation project.

Yours sincerely

Barbara Ferry-Smith  
Community Liaison Manager
