

Former Wollongong Gasworks Remediation Project

Building and Warehouse Demolition – July 2019

Upcoming Works at the 120-122 Smith Street Site

Jemena will be undertaking the demolition of existing buildings located at its 120-122 Smith Street site in Wollongong, adjacent to the Throsby Drive overpass and Collegians Rugby League Football Club. The site formed a portion of the former Wollongong Gasworks.

The historical gasworks-related operations and waste disposal activities contributed to localised contamination of the soil and groundwater at the site. Extensive environmental investigations have been completed to date to understand the nature and extent of contamination to help inform the future remediation works. A previous phase of works was undertaken in late 2018 to remove soil stockpiles in preparation for the future remediation activities.

The next stage of work (pending consent of the Development Application) involves the demolition of the remaining buildings in preparation for future remediation works.

Jemena have submitted the Development Application and are currently awaiting determination from the Wollongong City Council. Following determination, Jemena will provide a project update notifying surrounding residents and businesses on further details relating to the demolition works.

In addition to the above, Jemena have planned a Community Information Session for local residents, where our staff will be on hand to discuss future demolition and remediation works. The session will be held as follows:

Location: 120-122 Smith Street, Wollongong
Date: Tuesday 16 July 2019
Time: 3.00pm – 6.30pm
RSVP: No later than 5pm on Friday 12 July 2019

If you wish to stay updated on progress, please register on our project portal: haveyoursay.jemena.com.au. Alternatively, contact us on 1800 571 972 during business hours or email wollongong@jemena.com.au.

Thank you for your understanding and patience during this next phase of works.
