

Former Wollongong Gasworks Remediation Project

Community Notification – October 2019

Demolition Works Progress Update - Email

The building demolition works at the former Wollongong Gasworks located at 120-122 Smith Street is nearing its final stages of works. We are progressing well and ahead of schedule, with the next critical phase prior to the completion of works involving the demolition and removal of the remaining concrete slabs.

The concrete slab removal works are expected to commence from approximately Thursday 24 October, with works fully underway the week of the 28 October. There will be intermittent noisy activities associated with this work, as such, every effort will be made to minimise the impact of the work on the local community.

Jemena's appointed contractor Liberty Industrial, an experienced demolition contractor, intends to minimise the use of hammering equipment to break up the concrete slab where possible, however, this is dependent of the thickness and quality of the slab.

Hammering activities (if required) and concrete sawing activities will be sequenced to assist with noise mitigation. Further noise mitigation strategies such as respite periods will be implemented throughout, as well as consideration to the timing of these works, in order to minimise impact on the community.

Liberty Industrial are actively monitoring noise, dust and vibration levels throughout the works, ensuring mitigation measures are performing adequately in accordance with conditions of development consent.

If you have any questions or want to know more about the project, please register on our Project portal at haveyoursay.jemena.com.au.

Alternatively, contact us on **1800 571 972** during business hours or email wollongong@jemena.com.au.

Thank you for your understanding and patience during this important stage of works.
