

Former Wollongong Gasworks Remediation Project

Community Notification – November 2019

Completion of Demolition and Investigation Works at 120-122 Smith St, Wollongong

The Jemena project team wish to advise you that works to demolish the buildings at the former Wollongong Gasworks site located at 120-122 Smith Street is now complete.

We thank you for your support and patience whilst we completed this important stage of the project.

In the new year, Jemena will commence remediation of the site to address soil and groundwater contamination as a result of historical gasworks related operations and waste disposal activities.

Jemena is committed to engaging with the local community about the project. We are planning a community information session to be held in early 2020 to provide information about the planned works and upcoming remediation activities.

Information sessions are provided as an opportunity to share information, ask questions and seek feedback on various aspects of the project. Further details regarding this session and timing will be issued closer to the time.

If you have any questions, want to know more about the project, please register on our Project portal at haveyoursay.jemena.com.au.

Alternatively, contact us on **1800 571 972** or email wollongong@jemena.com.au.

We thank you for your patience and understanding during the works.
