

Former Wollongong Gasworks Remediation Project

Community Notification – April 2020

Former Wollongong Gasworks Remediation Project, 120-122 Smith Street, Wollongong

Postponed Community Information Session

Jemena regret to advise the Community Information Session scheduled for Tuesday April 28, 2020 has unfortunately been postponed due to COVID-19 Government Health Directives.

We are currently considering other options to hold a Community Information Session, in order to continue to keep the local community updated and informed on the environmental remediation works planned to commence at the Former Wollongong Gasworks Remediation site later this year.

Meanwhile, we encourage you to visit our Website or Project portal where the latest details, fact sheets and a brief presentation can be found outlining some of the key aspects of the upcoming remediation works, including measures that will be adopted to mitigate impacts to the surrounding community.

The Project Team are currently enacting control measures taking into consideration the latest Government Health Directives required to mitigate the spread of COVID-19. The health, safety and wellbeing of the Local Community is our highest priority during the COVID-19 pandemic, and as such we are reviewing our Project plans to ensure we adequately address the Government Health and Safety requirements.

The team are committed to informing local businesses and residents of upcoming works and will maintain regular letter drops and email updates. If you would to be kept informed on progress throughout the remediation works, and would be interested in joining Online Forum/s (sometime in the future) please register on our Project portal at <https://haveyoursay.jemena.com.au>, or email us at: wollongong@jemena.com.au.

If you have any questions or queries please don't hesitate to contact us on **1800 571 972** during business hours or email wollongong@jemena.com.au.
